FY 2018-19 full operating costs per inmate were obtained from DOC. The \$59.92 per diem (\$21,871 annual cost) is for all department facilities (excluding private institutions and approximately 150 beds in PRCs) and includes operations, health services, and education services. It does not include debt service costs. It also does not include indirect and administrative costs of \$4.09 per inmate (state facilities). Operating costs in future years were increased by the change in the CPI from the National Economic Estimating Conference.

FY 2018-19 dorm/work camp operating costs per inmate were obtained from DOC. The \$37.97 per diem (\$13,859 annual cost) includes costs such as health care, inmate personal care items, and officers assigned to dorms.

FY 2018-19 variable operating costs per inmate were obtained from DOC. The \$21.70 per diem (\$7,921 annual cost) includes costs such as health care and inmate personal care items.

FY 2006-07 capital costs per bed were based on Department of Corrections cost to build Suwanee CI (\$94,000,000 for 2,003 lawful capacity beds) as reported at the Criminal Justice Impact Conference held February 23, 2010. Capital costs in later years were increased by the change in the chained price index for state and local construction spending obtained from Global Insight, Inc.

Note: This impact statement is not intended to represent the direct appropriations impact of this bill. Rather, it provides a stand-alone estimate of the prison bed need of this particular bill. Cost data are included to allow a comparison of the impact of this bill with other proposed legislation. The actual appropriation associated with passage of this bill will differ depending on a number of factors including the existing inventory of prison beds.
