1. The federal fiscal year percentages used in calculating the estimated federal share of Medicaid matching funds as budgeted by state fiscal year are subject to future revision depending on changes to the forecasts of Florida and U.S. personal income and population. The personal income and population figures used in this forecast are based on the National and Florida economic forecasts and the Florida demographic forecast as adopted in February 2023.
  2. The State FY real time FMAP blend aligns the FFY (October-September) FMAP to the State Budget Year (July-June);  $.25*(\text{FMAP from Q4 of the prior FFY}) + .75*(\text{FMAP from Q1-Q3 of the current FFY})$ .
  3. The FMAP as shown is the FMAP resulting from the source data, confirmed when data available, otherwise estimated.
  4. The Enhanced FMAP is the matching rate used for the Title XXI funded Child Health insurance Program, Florida's KidCare program. The add-on to the Enhanced FMAP is time-limited per the ACA (October 1, 2015 through September 30, 2019) and H.R. 195 - 115th Congress: Extension of Continuing Appropriations Act, 2018 (October 1, 2019 through September 30, 2020).
  5. The Families First Coronavirus Response Act (P.L. 116-127), signed into law March 18, 2020, provided states and territories with a temporary 6.2 percentage -point increase in the regular FMAP. The Consolidated Appropriations Act (P.L. 117-328), signed into law December 29, 2022 phases down the 6.2 percentage-point FMAP increase from April to December, with the increase fully eliminated after December 31, 2023.
- Note: Italicized text reflects historical FMAP figures. Unitalicized text reflects forecasted FMAP figures.*

Because the Economic Estimating Conferences produce estimates of Florida and U.S. population and personal income that are different in definition and timing than the data from the Bureau of Economic Analysis (upon which the formula is based), it is necessary to convert the Estimating Conference forecasts to a BEA-type definition. This is accomplished by applying the growth rates of the relevant variables from the National and Florida Economic
