

**Education Estimating Conference**  
**Public Schools Capital Outlay Full-Time Equivalent Membership**  
**Executive Summary**  
**July 14, 2021**

On June 23, 2021, the Education Estimating Conference met in the first phase of a two-stage process to adopt a forecast for Capital Outlay Full-Time Equivalent Membership (COFTE) through the 2031-32 school year. The forecast was developed based on a cohort survival method that incorporated both recent and long-term trends applied to a lower starting point following the COVID-19 pandemic. In addition, the forecast took into account district requested forecast adjustments for traditional FTE “returners” in 2021-22 that were adopted at the April 2021 Education Estimating Conference for PreK-12 Enrollment. Because its primary use is for long-term district facility planning, the Conference made no further pandemic-related adjustments to its traditional cohort survival method of calculating growth. A handful of districts contacted DOE with general questions regarding COFTE; however, only Collier submitted a request for review citing anticipated population growth in the interior area of the county. Collier’s requested increase in COFTE ranged from 205.99 in 2021-22 to 687.58 in 2031-32 relative to the initial forecast. The Education Estimating Conference met again on July 14, 2021 for the final adoption of the forecast reflecting the adjustment for Collier County.

The following table shows the state-level COFTE enrollment as adopted by the Conference. The “Annual Change” columns represent the statewide change in enrollment from the prior year. Variations in annual change are due to different-sized grade cohorts moving through the public school system over time, as well as program participation estimates that impact the number of children expected to be in district-owned facilities. COFTE growth for the purposes of facility planning is calculated at the individual district level and is the difference between the current year and the maximum of the prior three years.
