

Voluntary Prekindergarten Estimating Conference Executive Summary August 2, 2016

The Voluntary Prekindergarten Estimating Conference met on August 2, 2016 to review final 2014-15 school year and 2015 summer data, preliminary 2015-16 school year and summer data reported through June 2016, and a revised four year old population data series; in addition to adopting a forecast through 2021-22.

Recent data reported through June 2016 contained several indicators that a change to the Conference's forecast was warranted: (1) a small increase in 2015-16 VPK school year full-time equivalent (FTE) enrollment; (2) a slight increase in the ratio between 2015-16 VPK school year FTE and enrollment; and (3) a decline in the 2016 summer FTE enrollment. Overall, the new data led the Conference to increase FY 2015-16 FTE by 366.42 FTE. However, the collective impact of the factors described above generally placed downward pressure on the forecast for all subsequent years, resulting in a new forecast for FY 2016-17 that was relatively unchanged from the January 2016 VPK Conference.

The new forecast uses the most recent ratio of FTE-to-enrollment (2015-16 school year and 2015 summer) and includes estimates for the Specialized Instructional Services Program (SISP). Overall, the new forecast decreases the estimates for FY 2016-17 by 16.15 FTE enrollment. The revised forecast for Fiscal Years 2017-18 through 2020-21 show reductions that range between 7.68 and 168.97 FTE enrollment when compared to the January 2016 VPK Conference.

The new forecast produces a participation rate of at least 78.1%, which is a decrease of about 0.2 percentage points from the January 2016 VPK Conference.

Assumptions		
Population Participation	Using the revised data series, participation rates will be 78.3% in 2020-21, as the program year growth rates are based on population growth.	Using the revised data series, participation rates will be 78.1% in 2021-22, as the program year growth rates are based on population growth.
VPK Enrollment 2015-16 Program Year and School Year (Non-SISP)	Program Year 2015-16 is the sum of 2015-16 School Year and 2016 Summer. 2015-16 School Year is based on data reported through November 2015. 2016 Summer is held constant at 2015 Summer.	Program Year 2015-16 is the sum of 2015-16 School Year and 2016 Summer. 2015-16 School Year is based on data reported through June 2016. Summer 2016 is based on the relationship between May/June 2016 and May/June 2015 as of June 2016 and 2015, respectively and Summer 2015.
Summer Growth (Non-SISP)	Held constant to reported 2015 Summer levels.	Summer 2016 is adjusted to reflect May/June 2016 data.
Summer Providers	Only counties that offered Summer 2015 will offer summer programs in the future. Summer round-up for the forecast years is held constant at 2015 Summer round-up levels.	Only counties that offered May/June Summer 2016 will offer summer programs in the future. Summer round-up for the forecast years is held constant at 2015 Summer round-up levels.
Relationship of Full Time Equivalent (FTE) Enrollment to Enrollment	Constant relationship based on 2014-15 school year and 2015 summer programs.	Constant relationship based on 2015-16 school year and 2015 summer programs.
Specialized Instructional Services Program (SISP)	School-year SISP enrollment will be held constant in the forecast to the levels seen in 2015-16 school year. Summer SISP is held constant to 2015 summer. Each SISP student that is still active in the program, is assumed to earn 1.0 FTE. The forecast period assumes an FTE of 1.0 for all projected SISP students. If a child starts SISP during the school year, it is assumed that the FTE is accrued in the school year. If a child starts SISP during the summer, their FTE is distributed throughout the summer, across the two fiscal years.	School-year SISP enrollment will be held constant in the forecast to the levels seen in 2015-16 school year. Summer SISP is held constant to 2016 Summer based on data through June 2016. Each SISP student that is still active in the program, is assumed to earn 1.0 FTE. The forecast period assumes an FTE of 1.0 for all projected SISP students. If a child starts SISP during the school year, it is assumed that the FTE is accrued in the school year. Terminology

Terminology	
Enrollment	Headcount of students in a program; unduplicated state and duplicated counties.
Fiscal Year	July 1 - June 30 (Includes part of summer enrollment from two program years).
Full-Time Equivalent (FTE) Enrollment	One Full-Time Equivalent Enrollment represents one child enrolled for the entire program. FTE calculation is based on the number of hours paid divided by 540 or 300 depending on the child's program (either 540 for the School Year program or 300 for the summer program).
Participation Rate	Program Year enrollment divided by the estimated/forecasted October 1, population of 4-year olds.
Program Year	Includes the VPK School Year and Summer Programs based on eligibility as determined by date of birth.
Public School Round-up	The public school FTE enrollment round-up refers to adding enrollment to public school FTE enrollment if the level of enrollment is not a multiple of 12 for summer 2009 and beyond and a multiple of 10 for summers 2007 and 2008.
School Year	540 hour VPK Program that runs from July/August (varies by county) until May/June.
SISP	Specialized Instructional Services Program
SISP Only Enrollment	Specialized Instructional Services Program Enrollment, never present in VPK
Summer	300 hour VPK Program that runs from May/June to July/August.
Summer - May/June	Portion of the 300 hour VPK Program that runs from May/June.
Summer - July/August	Portion of the 300 hour VPK Program that runs from July/August.
VPK	Voluntary Prekindergarten activity excluding SISP
