

Education Estimating Conference on Student Financial Aid
EXECUTIVE SUMMARY
December 16, 2021

The Student Financial Aid Estimating Conference met on December 16, 2021, to revise estimates for FY 2021-22 through FY 2026-27 for student financial aid programs based on final FY 2020-21 and preliminary FY 2021-22 Fall Term awards. The new estimates reflect data through November 23, 2021, and are compared to the August 2021 Conference estimates. For some scholarship programs, the impact of the COVID-19 pandemic on institutional operations is evident in the final FY 2020-21 data; however for others, the impact is conflated by possible offsetting behavioral effects. Relative to FY 2021-22, all four currently forecasted programs are expected to grow, although somewhat unevenly. By FY 2026-27, the last year of the forecast horizon, the combined growth rate across programs is 5.6% over the current year.

Bright Futures Scholarships: The projected awards for the FY 2021-22 regular program total **119,236**, an increase of 160 awards (or 0.1%) from the August estimate. In addition, the Conference adopted an estimate of **5,324** awards for early summer enrollments of high school graduates who will be initially eligible for an award in the 2022-23 academic year, but who opt instead to enroll early in the 2022 summer term. For the FY 2022-23 regular program, the Conference adopted **118,627** awards, an increase of 1,833 awards (or 1.6%) over the previous estimate, as well as an estimated **5,395** early summer enrollments for the 2023 summer term. For the FY 2023-24 regular program, the Conference adopted **117,676** awards, and a total of **5,576** early summer enrollments for the 2024 summer term. For all years, a substantial part of the increase relative to the August conference was related to revised assumptions regarding the statutory change affecting the FAS and FMS examination scores. Based on the data since the change took effect, the FAS students are no longer expected to convert to FMS at the levels originally anticipated.

Effective Access to Student Education (EASE) Grants: Based on the preliminary data for FY 2021-22 and participation changes that are expected to be persistent, the Conference estimated that the total number of awards will be lower than the previous estimates in all years of the forecast. The Conference projected a total of **37,198** awards for FY 2021-22, a decrease of 2,850 awards relative to the previous estimate. For FY 2022-23, the Conference adopted **37,705** total awards, a decrease of 3,122 awards (or -7.6%) relative to the previous estimate. The Conference also adopted **38,194** total awards in FY 2023-24, a decrease of 3,238 awards (-7.8%) relative to the previous estimate.

Access to Better Learning and Education (ABLE) Grants: The 2021 Florida Legislative Session repealed the statutory framework for the grant effective July 1, 2021. As a result, the forecast was zeroed out for all subsequent years. Since data is now final for FY 2020-21, this program will no longer be discussed by the Conference.

Children/Spouses of Deceased/Disabled Veterans (CSDDV): The Conference adopted an estimate of **2,701** awards for FY 2021-22, an increase of 121 awards (or 4.7%) over the previous estimate. For FY 2022-23, the Conference adopted **3,160** projected awards, an increase of 343 awards (or 12.2%) over the August estimate. The Conference also adopted **3,544** projected awards for FY 2023-24, an increase of 518 awards (or 17.1%) over the previous estimate.

Benacquisto Scholarship Program: The Conference adopted an estimate of **1,974** awards for FY 2021-22, an increase of 23 awards (or 1.2%) over the August estimate. For FY 2022-23, the Conference adopted **1,992** projected awards, an increase of 56 awards (or 2.9%) over the previous estimate. The Conference also adopted **2,008** projected awards for FY 2023-24, an increase of 86 awards (or 4.5%) over the previous estimate.
