

Social Services Estimating Conference

Temporary Assistance for Needy Families Assistance Payments

Executive Summary

The Social Services Estimating Conference convened on March 16 to revise the projections for FY 2010-11 through FY 2014-15.

The conference adopted a forecast that was moderately reduced from the January estimate over the next two years. All of the caseload groups have new projections that are lower than the previous forecast. For the families with an adult and families with an unemployed parent groups, previously held assumptions regarding the pattern of caseloads that would be seen around the end of the recession have been revised. Under the previous forecast, these groups were expected to begin trending downward toward the end of the year. Recent evidence indicates that these two caseload groups have already started their downward trend.

With regard to expenditures, the new forecast for the current year is lower than the forecast adopted last January by \$3.8 million (\$29.4 million less than the original appropriation). Total expenditures for assistance payments are now estimated to be \$181.7 million this fiscal year. For FY 2011-12, expenditures will be lower and are estimated at \$177.5 million (-2.3%).
