

Voluntary Prekindergarten Estimating Conference

Executive Summary

December 10, 2020

The Voluntary Prekindergarten (VPK) Estimating Conference met on December 10, 2020, to adopt a revised forecast through Fiscal Year 2025-26. As part of its analysis, the Conference reviewed the latest administrative policies relating to the Coronavirus outbreak that affect VPK enrollment, as well as weekly data collected from the EFS Modernization portal by the Office of Early Learning through December 7, 2020. The school year data from the EFS Modernization system for 2020-21 through October 2020 provided a snapshot of recent enrollment and payment activity. Other new information included final 2019-20 data, final summer 2020 data, and a revised birth forecast consistent with the latest Demographic Estimating Conference.

Overall, the 2019-20 fiscal year enrollment was 17.31 FTE higher than estimated at the August 2020 Conference. Summer VPK enrollment was particularly affected by the Coronavirus outbreak, with just 1,433.20 FTE for the full 2020 summer program, a decline of 2,932.43 FTE relative to the full 2019 summer program. For summer 2020, July and August FTE were overall higher than May and June FTE, increasing from 521.09 FTE to 912.11 FTE.

The October 2020 and December 7th 2020-21 data indicate a significant decline in recent enrollment. To estimate the 2020-21 school year enrollment, a comparison of projected end of year enrollments based on both data points relative to the same time period a year ago were analyzed. Using the maximum of these results by district resulted in a 2020-21 school year enrollment of 113,935.67. Slightly stronger May and June enrollment is forecast relative to 2020, resulting in a forecast of 115,930.11 FTE for the entire 2020-21 fiscal year, or 28,123.58 FTE lower than the previously adopted forecast.

Policy changes affecting the 2020-21 school year include a “VPK Flex” option. This virtual option for delivering VPK instruction mirrors local school districts’ reopening plans. VPK Flex was initially authorized through December 31, 2020; however, providers who applied to participate in this option in August and September may now offer VPK Flex through the remainder of the school year. As of December 7th, there were 13,399 enrollments in the program, which are included in the current enrollment totals for the school year.

To restore normal trends in tandem with the distribution of a vaccine, the Conference assumes that summer 2021 enrollment will be an average of 2019 and 2020 summer enrollment, with July and August enrollment higher than May and June. This bifurcated effect is in keeping with vaccine availability becoming more widespread as summer progresses. Going forward into 2021-22, expectations regarding program growth continue to be shaped by annual growth in births from the four years prior to potential enrollment. The forecast uses an alternative 2020-21 enrollment base, one that is based on growth in births absent any impacts from the pandemic. Overall, the enrollment forecast grows from 157,100.77 FTE in 2021-22 to 159,139.25 FTE in the outermost year, with some downward fluctuation throughout the horizon due to decreases in births. The new forecast produces a participation rate of 73.7% in the outermost year, increasing from 53.5% in the current year.

Comparison of Input Data and Forecast Assumptions August 4, 2020 and December 10, 2020 Voluntary Prekindergarten (VPK) Estimating Conferences

	August 4, 2020 Conference	December 10, 2020 Conference
Inputs		
VPK Enrollment – School Year Program 2019-20	<i>Reported as of June 2020</i>	
	Reported VPK Enrollment: 165,426	Reported VPK Enrollment: 165,587
	Estimated VPK FTE: 153,832.89	Reported VPK FTE: 154,053.57
	FTE to Enrollment: 92.99%	FTE to Enrollment: 93.03%
VPK Enrollment -- Summer May/June 2020	Reported VPK Enrollment: 1,300	Reported VPK Enrollment: 1,343
	Reported VPK FTE: 724.46	Reported VPK FTE: 521.09
	FTE to Enrollment: 55.73%	FTE to Enrollment: 38.80%
VPK Enrollment -- Summer July/August 2020	Estimated VPK Enrollment: 1,300	Reported VPK Enrollment: 1,404
	Estimated VPK FTE: 629.77	Reported VPK FTE: 912.11
	FTE to Enrollment: 48.44%	FTE to Enrollment: 64.97%
VPK Enrollment -- Summer	Estimated VPK Enrollment: 1,300	Reported VPK Enrollment: 1,453
	Estimated VPK FTE: 1,354	Reported VPK FTE: 1,433.20
	FTE to Enrollment: 104.17%	FTE to Enrollment: 98.64%
Population	<i>Estimated based on July 2020 Demographic Estimating Conference:</i>	
	October 1, 2018: 228,643	October 1, 2018: 228,643
	October 1, 2019: 234,370	October 1, 2019: 234,528
	October 1, 2020: 236,197	October 1, 2020: 236,844
Assumptions		
Population Participation	Using the revised data series, participation rates will be 74.9% in 2025-26. The program growth rates are based on birth growth rates.	Using the revised data series, participation rates will be 73.7% in 2025-26. The program growth rates are based on birth growth rates.
School Year	School year was grown based on births.	For school year, enrollment data through October 2020 and data as of December 7, 2020 were analyzed. The data were extrapolated to estimate school year using ratios of enrollment for the same time periods last year and final. The outer years are based on a forecast of births.
Summer	Estimated summer 2020 was based on a 200 hour program for most counties. Summer 2021 and beyond is held constant to Summer 2019.	For summer 2021 , enrollment is based on a combination of summer 2019 and 2020 levels. Summer 2021 FTE is based on summer 2019 FTE ratios. Summer 2022 and beyond is held constant to summer 2019 levels.
Relationship of Full Time Equivalent (FTE) Enrollment to Enrollment	For school year, data through June 2020 are presented as preliminary for the year.	A combination of 2018-19 and 2019-20 FTE ratios by county was used to estimate school year FTE ratios for 2020-21 and beyond.
Specialized Instructional Services Program (SISP)	School-year and Summer enrollment reflects data from the EFS Modernization system.	
	Each SISP student that is still active in the program, is assumed to earn 1.0 FTE. The forecast period assumes an FTE of 1.0 for all projected SISP students.	Each SISP student that is still active in the program, is assumed to earn 1.0 FTE. The forecast period assumes an FTE of 1.0 for all projected SISP students.
	If a child starts SISP during the school year, it is assumed that the FTE is accrued in the school year. If a child starts SISP during the summer, their FTE is distributed throughout the summer, across the two fiscal years.	If a child starts SISP during the school year, it is assumed that the FTE is accrued in the school year. If a child starts SISP during the summer, their FTE is distributed throughout the summer, across the two fiscal years.
