

**Self-Insurance Estimating Conference**  
**State Employees' Group Health Self-Insurance Trust Fund**  
**Executive Summary**  
**January 13, 2022**

The Outlook for the State Employees' Group Health Self-Insurance Trust Fund has been revised to reflect actual enrollment and cash flows through November 2021; revised investment earnings rates; revised claims trends for Preferred Provider Organization (PPO) and Health Maintenance organization (HMO) pharmacy claims; new fully insured Insurance Premium rates, effective December 2021 for January 2022; revised growth factors for fully insured HMO premium rates; new Medicare Advantage Prescription Drug (MAPD) Plan rates, effective December 2021 for January 2022; revised growth factors for PPO medical claims for FY 2021-22; and revised projections for the Shared Savings Program. The fund is now expected to remain solvent only through FY 2022-23, a loss of one year of solvency (FY 2023-24) relative to the August 2021 Outlook.

For FY 2021-22, the ending cash balance decreased from \$724.0 million to \$670.2 million. For FY 2022-23, the ending cash balance decreased from \$515.1 million to \$408.1 million. The forecast for subsequent years shows that expenses are expected to exceed revenues by amounts that generate negative cash balances of \$61.8 million in FY 2023-24, \$724.2 million in FY 2024-25, \$986.6 million in FY 2025-26, and \$1,282.5 million in FY 2026-27. The escalating negatives occur even though the Conference assumes that each year's deficit is cleared prior to the beginning of the next year. A major contributing factor to the changes in ending cash balances is lowered expectations regarding enrollment in the short term with higher per enrollee expenses for those that remain. In this regard, expected enrollment is -3,312 lower in FY 2021-22 when compared to the August forecast, yet total projected expenses are essentially equivalent to the prior forecast.

Even though enrollment projections were also decreased for FY 2022-23 compared to the August 2021 forecast, the lessening amount of the downward adjustment reflects the Conference's expectation that the atypically large number of current vacancies will slowly begin to reverse. For the remainder of the forecast period, the enrollment projections match the totals adopted at the August 2021 conference.

A complete Executive Summary outlining all of the changes since the August 2021 Conference can be found at the beginning of the *Report on Financial Outlook* used as the conference packet. The following table shows the **major** net changes between the August 2021 and January 2022 forecasts.

# STATE EMPLOYEES' GROUP HEALTH SELF-INSURANCE TRUST FUND

## EXECUTIVE SUMMARY

The Florida Division of State Group Insurance (the Division) prepared an Outlook for the State Employees' Group Health Self-Insurance Trust Fund (Trust Fund) for the fiscal years (FY) ending June 30, 2022, through June 30, 2027. The Outlook is prepared to assist in the State's planning and budgeting in accordance with section 216.136(9), Florida Statutes. The Outlook is prepared using cash basis methods and modeling based on the healthcare benefit and funding design currently in place.

The Outlook builds on the financial and enrollment data presented in the August 2021 Report on the Financial Outlook, henceforth referred to as the Prior Outlook. With the Prior Outlook as the base, this Outlook has adjustments for the following:

1. Actual enrollment and cash flows through November 2021.
2. Revised Investment Earnings rates.
3. Revised claims trends for Preferred Provider Organization (PPO) and Health Maintenance Organization (HMO) pharmacy claims.
4. New fully insured Insurance Premium rates, effective December 2021 for January 2022.
5. Revised growth factor for fully insured HMO premium rates.
6. New Medicare Advantage Prescription Drug (MAPD) Plan rates, effective December 2021 for January 2022.
7. Revised growth factor for PPO medical claims for FY 2021-22.
8. Revised projections for the Shared Savings Program.

Overall, there are decreases in revenues through FY 2024-25 with an increase in revenue for FY 2025-26 compared to the Prior Outlook. Expenses decrease in FY 2021-22 then increase for all remaining fiscal years of the Outlook. Decreases in ending cash balances are reflected for FY 2021-22 and FY 2022-23. The ending cash balance for FY 2023-24 changes from a surplus to a deficit. The deficit previously projected for FY 2024-25 and FY 2025-26 in the Prior Outlook has increased. Finally, the projected ending cash balance for the added FY 2026-27 is also a deficit. The Outlook reflects that the Trust Fund is projected to remain solvent through FY 2022-23.

The ending cash balance for FY 2021-22 is adjusted from \$724.0 million to \$670.2 million, a decrease of \$53.8 million. The estimated operating gain of \$3.2 million is now a loss of \$50.6 million. For FY 2022-23, the forecasted ending cash balance is adjusted from \$515.1 million to \$408.1 million, and the estimated operating loss has increased from \$208.9 million to \$262.1 million. The ending cash balance for FY 2023-24 is adjusted from \$101.6 million to a deficit of \$61.8 million, a decrease of \$163.4 million. The estimated operating loss of \$413.5 million is increased to \$469.9 million. Ending cash balance deficits and operating losses are projected for FY 2024-25 through FY 2026-27.

As of November 2021, a total of 28,043 eligible employees, or 16.79%, opted out of enrollment in the Program, with 46.73% of those employees in OPS positions. The Prior Outlook reflected that 15.40% of eligible employees opted out of coverage and 46.50% were in OPS positions.

During the 2022 Open Enrollment, approximately 147,473 Active (Non-OPS) employees were offered coverage, compared to 153,623 offered coverage during the 2021 Open Enrollment. An additional 17,644 employees paid from Other Personal Services (OPS) funds were offered coverage, compared to 20,106 offered coverage during the 2021 Open Enrollment.

## STATE EMPLOYEES' GROUP HEALTH SELF-INSURANCE TRUST FUND

Final 2022 Open Enrollment numbers reflect that 129,098 (87.54%) of the eligible Active (Non-OPS) employees elected coverage, of which 52,518 (40.68%) enrolled in Individual coverage, 71,612 (55.47%) enrolled in Family coverage, and 4,968 (3.85%) enrolled in Spouse coverage. Active (Non-OPS) enrollment in PPO plans was 41.73%, and 58.27% enrolled in HMO plans. A total of 6,842 (38.78%) of the eligible OPS employees elected coverage, of which 4,729 (69.12%) enrolled in Individual coverage; 2,065 (30.18%) enrolled in Family coverage, and 48 (0.70%) enrolled in Spouse coverage. OPS enrollment in PPO plans was 54.63% and 45.06% enrolled in HMO plans.

Enrollment patterns for FY 2021-22 through FY 2025-26 reflect an average annual decrease of 21 subscribers for Active coverage, compared to a decrease of 823 subscribers in the Prior Outlook. Early Retiree enrollment is projected to decrease an average of 3 subscribers annually, compared to a decrease of 8 subscribers projected in the Prior Outlook. Enrollment in the Medicare coverage categories, including the MAPD Plans, is expected to increase by an average of 281 subscribers annually, compared to an increase of 254 subscribers projected in the Prior Outlook. Total enrollment is projected to increase an average of 254 subscribers annually throughout the forecast period, compared to a decrease of 574 subscribers annually, as projected in the Prior Outlook.

The impact of changes to projected enrollment have resulted in decreases for FY 2021-22 and FY 2022-23 due to the recent reductions in actual enrollment. Based on the assumption that the recent reduction in state employment is a short-term situation and not a long-term systemic one, projected enrollment is tapered back to the prior outlook levels for FY 2023-24 through FY 2025-26. For FY 2021-22 there is a decrease of 3,312 subscribers, a decrease of 1,636 for FY 2022-23, and no change for FY 2023-24 through FY 2025-26 compared to the Prior Outlook.

### REVENUE

Combined premium contribution revenues for FY 2021-22 through FY 2025-26 are \$86.7 million lower than projected in the Prior Outlook; \$82.6 million of the reduction is due to lower projected enrollment and \$1.5 million of the reduction is due to lower actual than projected fully insured Medicare coverage rates with the remaining reduction due to shifts in case mix. Investment earnings decreased a combined total of \$2.9 million for FY 2021-22 through FY 2023-24 due to the lower projected cash balance.
