NOTES:--This forecast accounts for the Medicaid caseload growth previously adopted. Reductions in federal Disproportionate Share Hospital Funding due to the Affordable Care Act have not been included as the federal Centers for Medicare & Medicaid Services (CMS) have only released amounts and methodology that will be used in calculating state reductions. The forecast adheres to federal waiver authority for the size of the Low Income Pool (LIP) for FY 2018-19 which is currently set to expire June 2022 and is contingent upon approval of a budget amendment per the General Appropriations Act. The forecast assumes continuation of Intergovernmental Transfers (IGTs) from local taxing authorities. The forecast also assumes continuation of IGTs for DSH based on historical collections for this purpose for FY 2018-19 through FY 2023-24. While IGT collections for LIP and DSH have no impact on managed care plan capitation rates, the SSEC strongly cautions that IGTS for these purposes may be at risk beginning in FY 2018-19 and may result in lower supplemental payments to providers. The forecast assumes that retroactive eligibility will begin on February 2019 and continue through the remainder of the forecast.

Terminology								
Eligible Population	Average monthly number of enrolled Medicaid individuals qualified to receive							
	the specified services							
Utilization Rate	Average monthly percentage of the eligible population that utilized the specified							
	services							
Comisso /Month	Average monthly number of times the specified services were rendered to							
Services/Month	individuals in the eligible population							
Unit Cost	Average cost per service provided							
Cost per Eligible	Average cost per month per individual in the eligible population							
Total Coat	Total cost of providing the specified services to the eligible population in the							
Total Cost	given state fiscal year
