

HB 287 – Controlled Substances

This bill adds kratom to Schedule I of Controlled Substances -- (which inc. cannabis and LSD and many other substances).

In FY 13-14, offense “Other drug—S/M/D,” “Other drug—Purchase/Possession With Intent to Purchase,” and “Possession Controlled Substance/Other,” which would include the new substances, resulted in total of about 535 new commitments. Given that several hundred potential drugs are included in these admissions, the addition of kratom should not substantially increase this number.

CONFERENCE ADOPTED ESTIMATE: Positive Insignificant
