

EXECUTIVE SUMMARY

Florida General Revenue Estimating Conference April 12, 2006

Altogether, the Revenue Estimating Conference added \$960.2 million dollars to its forecast of General Revenue collections for this year and the next. Projected collections for Fiscal Year 2005-06 were adjusted upward by \$427.6 million or 1.6 % over the last estimate. For Fiscal Year 2006-07, expected revenues were increased by \$532.6 million or 2% over the earlier forecast.

The new revenue forecast contains 7.5% growth in Fiscal Year 2005-06 over Fiscal Year 2004-05 and an additional 1.6% growth in Fiscal Year 2006-07. The slow-down in revenue growth between fiscal years is largely attributable to dampened real-estate activity. Continued strength in the underlying Florida economy, along with population-driven revenue increases and a higher personal income forecast bolster the rest of the estimate. These economic factors influence the forecast in the following ways:

- Documentary Stamp and Intangibles ‘C’ tax collections remained high through the third quarter of the fiscal year, buoyed in large part by continuing house price appreciation. As the adjustment to higher interest rates and increased housing costs begins to take hold, prices will weaken – exerting downward pressure on collections.
- Sales Tax collections are marginally stronger:
 - Business investments are beginning to increase as firms which have previously held back on spending return to more normal expenditure patterns.
 - Stronger demand has driven commercial real estate rentals (in both volume and price) to levels not fully accounted for in the prior estimate.
 - Higher prices for taxable items caused by inflation, input shortages, and higher energy costs are contributing to increased revenues.
 - There is a downside risk that higher energy costs may slow future consumer consumption, thereby eroding anticipated tax collections.
- After experiencing unprecedented growth over the last two years, Corporate Income Tax collections are expected to maintain the previous gains, but stabilize. This reflects both strong growth in profits over the past two years and Florida’s economic strength compared to the rest of the nation. After estimated growth of 37.5% in Fiscal Year 2005-06, receipts are expected to return to a modest growth rate (3%) in Fiscal Year 2006-07. The lower growth rate is largely due to increasing price pressures.

FOOTNOTES

(A) The FY 2005-06 statutory balance in the Budget Stabilization Fund is \$1091.2 million. The required balance for FY 2006-07 is \$1248.5 million, requiring a transfer of \$157.3 million. These figures do not include hurricane-related budget amendments transferring funds to the Casualty Insurance Risk Management TF which must be repaid to the Budget Stabilization Fund per Chap. 215.32(2)(c)3, F.S. (EOG #483 for FY 04-05 of \$11.0 million and EOG #205 for FY 05-06 of \$11.8 million).

(B) This financial statement is based on current law as it is currently administered. It does not include the potential effect of any legal actions which might affect revenues or appropriations. The Attorney General periodically issues an update on any such litigation. In addition, it does not recognize any deficits in any spending programs unless specifically stated.

(C) Hurricane related expenditures were made through budget amendments which anticipate repayment from FEMA funds.

(D) The General Appropriations Act (Sections 41 and 42) includes contingency appropriations which require further action by the Legislative Budget Commission through the budget amendment process before they can become effective. These contingent appropriations will be included as effective appropriations at the time any such budget amendments are adopted.
