

EXECUTIVE SUMMARY

Revenue Estimating Conference for the General Revenue Fund November 14, 2006

Altogether, the Revenue Estimating Conference reduced its General Revenue forecast by \$394.8 million for this year and the next. Projected collections for Fiscal Year 2006-07 were revised upwards by \$71.2 million or about a quarter of one percent over the last estimate. For Fiscal Year 2007-08, expected revenues were decreased by \$466 million or -1.6% from the earlier forecast.

However, the new revenue forecast still contains limited growth in Fiscal Year 2006-07 over Fiscal Year 2005-06 and an additional 3.83% growth in Fiscal Year 2007-08. The revisions to the forecast are largely attributable to weaker than expected real-estate activity. While the state's forecast mirrors the national outlook in significant ways, the heightened level of speculative activity and second-home buying in Florida made it particularly vulnerable to the widely anticipated real-estate market slowdown. Continued strength in the underlying Florida economy, along with population-driven revenue increases and higher levels of personal income, bolster the rest of the estimate. These economic conditions influence the forecast in the following ways:

- Documentary Stamp and Intangibles 'C' tax collections remained high through the end of the last fiscal year, buoyed in large part by continuing house price appreciation. As the adjustment to higher interest rates and increased housing costs began to take hold, prices and sales weakened – exerting downward pressure on collections.
- Sales Tax collections are marginally weaker as taxable sales arising from record-level housing construction diminish. Associated spending for items like furniture, appliances and carpets will also begin to slow. Offsetting these adjustments, business investments are beginning to increase as firms that previously held back on spending return to more normal expenditure patterns.
- After experiencing unprecedeted growth over the last two years, Corporate Income Tax collections are expected to maintain the previous gains, but begin to stabilize. This reflects both strong growth in profits over the past two years and Florida's economic strength compared to the rest of the nation. After reaching an historic growth rate of 39.1% in Fiscal Year 2005-06, receipts are expected to return to more modest growth rates of 9% in Fiscal Year 2006-07 and 2.1% in Fiscal Year 2007-08. The lower growth rates are largely due to two reasons: (1) weaker profits in companies previously benefiting from the overheated real estate market, and (2) increasing cost pressures for the rest.

FOOTNOTES

(A) The FY 2006-07 statutory balance in the Budget Stabilization Fund is \$1248.5 million. The required balance for FY 2007-08 is \$1353.7 million, requiring a transfer of \$105.2 million. These figures do not include hurricane-related budget amendments transferring funds to the Casualty Insurance Risk Management TF which must be repaid to the Budget Stabilization Fund per Chap. 215.32(2)(c)3, F.S. (EOG #483 for FY 04-05 of \$11.0 million and EOG #205 for FY 05-06 of \$11.8 million). As of the date of this financial statement, there was \$19.8 million remaining to be repaid.

(B) This financial statement is based on current law as it is currently administered. It does not include the potential effect of any legal actions which might affect revenues or appropriations. The Attorney General periodically issues an update on any such litigation. In addition, it does not recognize any deficits in any spending programs unless specifically stated.

(C) Hurricane related expenditures were made through budget amendments which anticipate repayment from FEMA funds.

Beginning in October 2001, telecommunications services became taxable under Communications Services Tax.

Prior to the implementation of the Communications Services Tax, these sales were included in the nondurables category.
