

EXECUTIVE SUMMARY

Revenue Estimating Conference for the General Revenue Fund

December 14, 2012

Since the last forecast was adopted in August, monthly collections have run above estimate by \$267.5 million. However, the reasons for the gains experienced by the various sources are mixed, with many sources benefitting from one-time events rather than exhibiting underlying strength. In addition, the latest national and Florida economic outlooks are similar to the ones adopted in the summer, with significant downside risks in the near term. The Revenue Estimating Conference took these factors into consideration in revising the forecast. For FY 2012-13, expected revenues were increased by \$236 million—or about one percent above the earlier forecast—to recognize some of the more persistent gains seen up to this point as well as the unanticipated transfer of an additional \$40 million in civil penalties from the National Mortgage Foreclosure Settlement Agreement. For FY 2013-14, expected revenues were increased by \$155.7 million or six-tenths of one percent above the earlier forecast. The growth rates for FY 2014-15 and FY 2015-16 were decreased to 4.7% from 4.9% and to 4.2% from 4.6%, respectively.

The revised FY 2012-13 estimate exceeds the prior year's collections by over \$1.2 billion (or about 5.3%). The revised forecast for FY 2013-14 has projected growth of nearly \$1.2 billion (or 4.7%) over the revised FY 2012-13 estimate.

Revenue estimates are primarily affected in the following ways:

- **Sales Tax...** Reflecting the mixed results experienced year-to-date, Sales Tax collections were adjusted upward in four categories and revised downward in two categories. Overall, the forecast was increased by \$22.9 million in FY 2012-13 and decreased by \$20.6 million in FY 2013-14; however these results do not include any future impact from the resolution of the issues entwined in the federal “Fiscal Cliff.”
- **Corporate Income Tax...** Largely based on the overages seen so far this year, Corporate Income Taxes were adjusted upward in every year of the forecast. Overall, the estimate was increased by \$88.8 million in FY 2012-13 and by \$89.6 million in FY 2013-14.
- **Real Estate Taxes (Documentary Stamp Tax and Intangibles Tax)...** The gains experienced year-to-date are largely attributable to the increased refinancing activity induced by the federal Home Affordable Refinance Program (HARP). In the longer term, increases reflect the expectation that recovery is finally beginning to take hold in the housing market. Overall, both taxes continue to grow strongly over the entire period. Together, the increase to General Revenue collections in FY 2012-13 is \$72.6 million and \$68.5 million in FY 2013-14.

The new forecast for General Revenue does not include potential impacts to state revenues from the implementation of the federal Affordable Care Act. In this regard, the Insurance Premium Tax and Medical & Hospital Fee collections will be positively affected. The Conference will address these issues starting in January.

Several of the revisions to the General Revenue forecast (Tobacco Taxes, Article V Fees & Transfers, Indian Gaming Revenues, and Highway Safety Licenses & Fees) are the results of earlier conferences. Altogether, the losses from these conferences totaled \$56.7 million in FY 2012-13 and \$13.1 million in FY 2013-14. Additional information regarding these sources can be found on the Legislative Office of Economic and Demographic Research’s website: <http://edr.state.fl.us/conferences.htm>.

Underlying the forecast is the assumption that a recovery has been underway since the late spring of 2010, but the economy still has several years to go to return to normal conditions. While not included in the official forecast, the “Fiscal Cliff” in the United States and continuing difficulties in the Eurozone present risks to this forecast.

Beginning in October 2001, telecommunications services became taxable under Communications Services Tax.

Prior to the implementation of the Communications Services Tax, these sales were included in the nondurables category.
