

EXECUTIVE SUMMARY
Revenue Estimating Conference for the General Revenue Fund
January 21, 2022

The new forecasts for the national and state economies adopted in December 2021 contained only slight revisions, straddling the prior forecasts for many of the economic metrics, most notably in the short-term. Economic disruption is still evident over the next few years, with some variables increasing from abnormally low activity and others dropping back from artificially high activity. Nonetheless, revenue collections over the past five months have far exceeded expectations and the economic fundamentals.

Fueled by the continuing influx of federal dollars, elevated savings and a still atypically high percentage of income spent on goods, revenue collections had gained \$2.2 billion to the Conference's expectations in August, with the next few months anticipated to add to the overage. Because the stimulus effects and outsized savings are now unwinding, the Revenue Estimating Conference crafted a glide path that largely removes those effects. As a result, nearly \$3.3 billion (inclusive of the year-to-date overage) was added to the forecast for the current year, but only \$704 million of that increase was retained for FY 2022-23. The two-year combined increase for FY 2021-22 and FY 2022-23 adds nearly \$4.0 billion to the prior forecast. These changes reflect increases over the previous estimates of 8.9 percent in FY 2021-22 and 1.8 percent in FY 2022-23.

By far the largest adjustment in the new forecast relates to Sales Tax, which had benefitted from the greater spending on goods and low inflation in the past. The anticipated gain to General Revenue is \$2.539 billion in FY 2021-22 and \$732.9 million in FY 2022-23, with all six sales tax categories seeing increases in both years. The Conference noted future risks to sales tax collections include consumers returning to a typical purchasing mix of goods and services, and managing personal budget constraints in a period of rising inflation, as well as the diminishing effects of federal stimulus payments.

Apart from Sales Tax, the greatest gain to the forecast comes from the Documentary Stamp Tax. Expecting the surge in the residential real estate market to continue a little longer before higher mortgage rates begin to affect sales, the Conference added \$296.7 million to the estimate for the current year and removed \$49.9 million from the next. Further, while the Conference significantly increased the forecast for Corporate Income Tax, the temporary tax rate reduction and refund provisions in s. 220.1105, F.S., had previously been triggered for taxable years beginning on or after January 1, 2021, and before January 1, 2022. Thereafter, the provisions of s. 220.1105, F.S., no longer apply. After taking this into account, the forecast was increased by \$175.5 million in FY 2021-22 and by \$2.1 million in FY 2022-23.

With the changes described above, future growth rates over the prior year reflect a new pattern relative to the prior forecast, with 10.8 percent growth in FY 2021-22 over FY 2020-21 and a decline of -2.9 percent in FY 2022-23, before again increasing in FY 2023-24.

Several of the revisions to the forecast (Indian Gaming Revenues, Tobacco Taxes, Article V Fees & Transfers, and Highway Safety Licenses & Fees) are the results of earlier conferences. Additional information regarding the estimates for sources adopted at prior conferences can be found on the Legislative Office of Economic and Demographic Research's website: <http://edr.state.fl.us/Content/conferences/index.cfm>.

THE FLORIDA LEGISLATURE

OFFICE OF ECONOMIC AND DEMOGRAPHIC RESEARCH

WILTON SIMPSON
President of the Senate

CHRIS SPROWLS
*Speaker of the House of
Representatives*

August 17, 2021

Jim Zingale, Ph.D.
Executive Director
Florida Department of Revenue
5050 West Tennessee Street
Tallahassee, Florida 32399-0100

Dear Dr. Zingale,

Please find below the Office of Economic and Demographic Research's final determination of Corporate Income Tax net collections for the 2020-21 fiscal year as required by section 220.1105(1)(a), Florida Statutes.

Corporate Income Tax Receipts	\$3,395,582,341.96
Corporate Income Tax Refunds	<u>(\$380,946,475.22)</u>
Net Collections	\$3,014,635,866.74

If you have any questions about our determination of the net collections, please let me know.

Sincerely,

A handwritten signature in cursive script that reads "Amy J. Baker".

September 13, 2021

The Honorable Ron DeSantis
Governor of Florida
PL 02, The Capitol
400 South Monroe Street
Tallahassee, FL 32399-0001

Dear Governor DeSantis:

Florida imposes a 5.5 percent tax on certain income of corporations doing business in Florida. Florida's adoption of the federal Internal Revenue Code as of January 1, 2018, captured the changes to the corporate income tax base enacted by Congress in December 2017, in the Tax Cuts and Jobs Act. During the 2018 Session, the Legislature created a temporary automatic tax cut and refund mechanism for corporate income taxpayers if tax collections grew beyond certain levels.

Section 220.1105, Florida Statutes, specifies by October 1, 2019, October 1, 2020, and October 1, 2021, the Department of Revenue is required to calculate the tax rate for corporate income tax to be imposed for tax years beginning on or after January 1, 2019, but before January 1, 2022. The Department is required to report the results of the calculation to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

The Department has performed the calculation as specified in statute and the calculation results in a reduction of the corporate income tax rate to 3.535% for tax years beginning on or after January 1, 2021, but before January 1, 2022.

The corporate income tax rate returns to 5.5% for taxable years beginning on or after January 1, 2022.

If you have questions or need additional information, you may contact me at (850) 617-8950.

Sincerely,

Jim Zingale

**Revenue Estimating Conference
Tax Collection Enforcement Diversion Program
January 28, 2022
Executive Summary**

The Revenue Estimating Conference convened on January 28, 2022, to adopt a forecast of revenues collected from the Tax Collection Enforcement Diversion program.

Background

The Tax Collection Enforcement Diversion program, which collects revenue owed by persons who have not remitted their sales tax collections as required, began as a pilot program in 2002 and was fully implemented in 2005. The program is operated by participating State Attorney's Offices in cooperation with the Department of Revenue (DOR). To be eligible for the program, taxpayers must meet certain requirements. They must show a pattern of delinquency for several months and the delinquency cannot exceed the misdemeanor level. Eight State Attorney's Offices currently participate in the program: Jacksonville, Clearwater, Miami, Tampa, West Palm Beach, Fort Lauderdale, Fort Myers, and Orlando (Key West participated in the program from FY 2008-09 through FY 2013-14).

Twenty-five percent of all collections from the program are distributed as sales tax collections via 212.20, F.S., and seventy-five percent are deposited into the special reserve account of the Florida Association of Centers for Independent Living. Those funds are to be used for administering the James Patrick Memorial Work Incentive Personal Attendant Services and Employment Assistance Program (JP-PAS) and for contracting with the State Attorneys participating in the tax collection enforcement diversion program. The JP-PAS provides personal care attendants and other support and services to persons with significant and chronic disabilities to enable them to obtain or maintain competitive and integrated employment, including self-employment.

Methodology

The DOR provided actual collections through December 2021 for the Tax Collection Enforcement Diversion program. Collections in the first six months of FY 2021-22 were 50.2% higher than collections in the prior year. The Ninth Circuit, the newest member of the program, began generating collections in March 2019 and is expected to continue participating throughout the forecast period. The January 2022 Conference adopted an estimated growth rate of -14.3 percent for FY 2021-22, resulting in total collections of \$3.9 million. The forecast is based on actual collections for the first half of the FY and assumes collections for the remaining six months will stay at December levels. Estimated collections thereafter maintain the FY 2021-22 level to balance upward risks from catch-up payments and downward risks from judicial system backlogs that result from current and potential future work disruptions due to the Coronavirus.

Forecast
