

EXECUTIVE SUMMARY

Revenue Estimating Conference for the General Revenue Fund

January 16, 2024

Key variables from the new state and national economic forecasts adopted in December 2023 ranged from slightly weaker to little changed from those adopted in July 2023. While economic disruption is still evident, with varied impacts on household savings, the elevated use of credit, and strong inflationary pressures on households, the forecasting environment has greatly stabilized with improving conditions expected over the forecast horizon. To this point, revenue collections have exceeded expectations since the last conference. General Revenue collections across all sources were \$1,258.6 million or 6.0 percent above the forecast since the beginning of the fiscal year. That said, considerable uncertainty exists regarding the impact on Florida from current geopolitical events, national fiscal policy decisions and future Federal Reserve actions.

After taking account of the year-to-date gain by source, the Conference added \$1.59 billion to the estimate for FY 2023-24. Even so, relative to actual collections in FY 2022-23, the new forecast for FY 2023-24 has a decline of -0.2 percent due to the net effect of legislative changes, the forecast adjustments, and the diminishing impact from Hurricane Ian recovery efforts. The projected growth in FY 2024-25 over the prior forecast is \$585.5 million, yielding a two-year combined increase of \$2.18 billion. These changes reflect increases over the previous estimates of 3.5 percent in FY 2023-24 and 1.2 percent in FY 2024-25.

The largest adjustment in the new forecast relates to Sales Tax in the current fiscal year. The anticipated gain to General Revenue is \$1,138.5 million in FY 2023-24 and \$284.2 million in FY 2024-25. The Conference noted future risks to sales tax collections include consumers dealing with increased debt and managing personal budget constraints in an environment of higher prices.

Apart from Sales Tax, the greatest gain to the forecast came from Earnings on Investment, which have benefitted from favorable interest rates. The Conference increased the forecast by \$309.8 million in FY 2023-24 and by \$99.2 million in FY 2024-25.

Finally, Insurance Premium Taxes had the third largest increase. The Conference increased the forecast by \$95.3 million in FY 2023-24 and by \$76.0 million in FY 2024-25.

Several of the revisions to the forecast (Tobacco Taxes, Article V Fees & Transfers, Highway Safety Licenses & Fees, Counties Medicaid Share and Pari-Mutuel Taxes) are the results of earlier conferences. Additional information regarding the estimates for sources adopted at prior conferences can be found on the Legislative Office of Economic and Demographic Research's website:

**Special Impact Conference on Hurricane Ian
Revenue Estimating Conference: Sales Tax
March 7, 2023**

The Revenue Estimating Conference met on March 7 2023, as a Special Impact Conference on Hurricane Ian to adopt adjustments to the baseline forecast for sales tax collections. After considering claims data from the Office of Insurance Regulation, updates from the National Flood Insurance Program, and the results from the Special Impact Conference on Hurricane Ian for ad valorem assessments, the Conference determined that the total Florida damage from Hurricane Ian will reach \$53.51 billion. This translates into a theoretical gain of over \$1.55 billion in sales tax benefiting the General Revenue Fund; however, the Conference addressed several additional issues that revised the total.

From the conceptual gain, the Conference believes \$481.4 million has already been received by the state as a result of rebuilding activity in October, November and December. In addition, the Conference projects that the sales tax exemption for impact-resistant window and doors that is in place until through June 30, 2024, will result in \$51.7 million savings to affected taxpayers, but at a loss to the estimate. Taking both adjustments into account, the forward-looking gain to the baseline forecast for sales tax is nearly \$1.02 billion. Following the expected restoration schedule adopted for the ad valorem forecast, these dollars would be spread over the period beginning February 2023 and ending December 2027.

These results will be embedded in the General Revenue forecast adopted on March 13, 2023.

The Honorable Ron DeSantis
Governor of Florida
PL 02, The Capitol
400 South Monroe Street
Tallahassee, FL 32399-0001

Dear Governor DeSantis:

Florida imposes a 5.5 percent tax on certain income of corporations doing business in Florida. Florida's adoption of the federal Internal Revenue Code as of January 1, 2018, captured the changes to the corporate income tax base enacted by Congress in December 2017, in the Tax Cuts and Jobs Act. During the 2018 Session, the Legislature created a temporary automatic tax cut and refund mechanism for corporate income taxpayers if tax collections grew beyond certain levels.

Section 220.1105, Florida Statutes, specifies by October 1, 2019, October 1, 2020, and October 1, 2021, the Department of Revenue is required to calculate the tax rate for corporate income tax to be imposed for tax years beginning on or after January 1, 2019, but before January 1, 2022. The Department is required to report the results of the calculation to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

The Department has performed the calculation as specified in statute and the calculation results in a reduction of the corporate income tax rate to 3.535% for tax years beginning on or after January 1, 2021, but before January 1, 2022.

The corporate income tax rate returns to 5.5% for taxable years beginning on or after January 1, 2022.

**Revenue Estimating Conference
Tax Collection Enforcement Diversion Program
January 22, 2024
Executive Summary**

The Revenue Estimating Conference convened on January 22, 2024, to adopt a forecast of revenues collected from the Tax Collection Enforcement Diversion program.

Background

The Tax Collection Enforcement Diversion program, which collects revenue owed by persons who have not remitted their sales tax collections as required, began as a pilot program in 2002 and was fully implemented in 2005. The program is operated by participating State Attorney's Offices in cooperation with the Department of Revenue (DOR). To be eligible for the program, taxpayers must meet certain requirements. They must show a pattern of delinquency for several months and the delinquency cannot exceed the misdemeanor level. Eight State Attorney's Offices currently participate in the program: Jacksonville, Clearwater, Miami, Tampa, West Palm Beach, Fort Lauderdale, Fort Myers, and Orlando (Key West participated in the program from FY 2008-09 through FY 2013-14).

Twenty-five percent of all collections from the program are distributed as sales tax collections via 212.20, F.S., and seventy-five percent are deposited monthly into the special reserve account of the Florida Association of Centers for Independent Living (FACIL). Those funds are to be used for administering the James Patrick Memorial Work Incentive Personal Attendant Services and Employment Assistance Program (JP-PAS) and for contracting with the State Attorneys participating in the tax collection enforcement diversion program. The JP-PAS provides personal care attendants and other support and services to persons with significant and chronic disabilities to enable them to obtain or maintain competitive and integrated employment, including self-employment.

Methodology

The DOR provided actual collections through December 2023 for the Tax Collection Enforcement Diversion program. Collections from July to December 2023 were 12.8% higher than the same period in the prior year. In part, this can be attributed to one-time payments in two of the circuits that are not expected to continue. Further, comparisons to the same month in the prior year are somewhat problematic since Hurricane Ian (September 2022) caused atypical office closures and suspension of enforcement activities in FY 2022-23. With the fluctuations in collections in FY 2022-23 and FY 2023-24 in mind, the January 2024 Conference adopted an estimated growth rate of 0.0 percent for FY 2023-24, maintaining total collections of \$3.6 million as in the prior year. Estimated collections are held to FY 2023-24 levels throughout the remainder of the forecast.
