

Executive Summary

The Social Services Estimating Conference convened on February 3 to revisit the estimates of Medicaid caseloads, and reconvened on February 24 to reestimate Medicaid expenditures for FY2005-06 and adopt a new forecast for FY2006-07.

Caseload estimating conference- The conference adopted a caseload projection for the current fiscal year that is slightly lower from the projection upon which the appropriation was based. Caseloads for FY 05-06 are projected to be nearly 2% lower than the appropriated level.

For the upcoming fiscal year, the SSI eligibility category is expected to increase by 2.5% from this fiscal year, while categories representing women and children are projected to rise by 2.9%. Currently, approximately 11.6% of Floridians are entitled to receive full Medicaid services, with another 0.9% receiving a subset of Medicaid services.

The Conference agrees to look further into the steep caseload drop in January for medically needy cases. This drop is believed to be a side effect of the transition to Medicare Part D. A rebound is expected.

Expenditure estimating conference- With regard to expenditures, the conference adopted a forecast for FY2005-06 that is \$357.4 million lower than the appropriation, for a total cost of \$14,706.1 million (up 5.9% from the prior year). The new forecast anticipates a surplus in General Revenue funding of \$281.0 million for the current fiscal year. Costs for prescribed medicine services are running slightly ahead of appropriation, but this will be more than offset by significantly increased rebates this year. Significant surpluses are projected in institutional services such as hospital inpatient, nursing home care, and hospice care. In addition, there are surpluses projected for outpatient and nursing home waivers. The projection for FY2005-06 anticipates full and immediate implementation of the new Medicare prescription drug coverage plan (Part D) beginning January 2006.

For the upcoming fiscal year, program expenditures are expected to rise to \$15,549.5 million, an increase of only 3.2% from the current year recurring appropriation base. The General Revenue share of the increase is projected at \$345.6 million (+7.8%) above the recurring FY2005-06 base appropriation. A reduced level of drug reimbursements due to Medicaid spending on prescribed medicine shifting to Medicare causes the General Revenue share of funding to increase disproportionately to the total increase.

2006 Legislative session- Appropriations for the Medicaid program for FY 06-07 totaled \$15.92 billion, an 8.2% increase from the FY 05-06 spending projection made in February. Highlights of legislative action affecting the Medicaid program are as follows-

- 1) Restore coverage of adult hearing and vision services and provide payment for partial dentures (+\$18.7 million).
- 2) Increase in per diem rates for statewide inpatient psychiatric program placements (+\$12.1 million).
- 3) Adjust hospital fixed cost reimbursements (+\$26.3 million).
- 4) Increase daily rates for assistive care service providers (+\$5.3 million).

5) Restore 2005-06 nursing home rate reductions and adjust reimbursement methodology regarding certain limitations (+\$91.3 million).

6) Increase nursing home diversions by 1,000 (+\$4.6 million).

7) Begin enhanced nursing home staffing requirements January 1, 2007 (-\$42.3 million).
