

**Revenue Estimating Conference for Maximum Appropriation
from the Public Education Capital Outlay Trust Fund**

Executive Summary

The table below shows the estimated amount available for appropriation to the Public Education Capital Outlay (PECO) program. These amounts reflect the results of the November 15, 2007 Revenue Estimating Conference.

	Maximum PECO Appropriations	Estimated PECO Bonding
FY 2006-07	1853.8	1436.6
FY 2007-08	1799.3	1317.2
FY 2008-09	1397.0	993.5
FY 2009-10	507.7	268.9
FY 2010-11	618.7	393.8
FY 2011-12	776.2	551.0
FY 2012-13	656.9	435.2
FY 2013-14	969.7	722.0
FY 2014-15	894.4	592.4
FY 2015-16	917.4	461.3

November 2007 Estimating Conference- The Revenue Estimating Conference increased the forecast of the maximum amount available for appropriation from the PECO Trust Fund for FY 2008-09 by \$145.5 million, to \$1397.0 million in total. Of this total amount, \$993.5 million is from the sale of bonds, slightly lower (-\$5.4 million) than the post-session position. The amount available as cash is projected to be \$403.5, up from the old forecast by \$150.9 million. After FY 2008-09, an increase in the Gross Receipts Tax forecast produces modest increases in bond sales, resulting in a higher projection of the amount available for appropriation of approximately \$40-\$70 million per year.

2007 legislative session action- The 2007 General Appropriations Act fully allocated the amount estimated to be available from the March conference. However, vetoes reduced the effective appropriation by \$41.7 million, to \$1799.3 million. Of this amount, cash funds will be used for projects totaling \$482.1 million, leaving \$1317.2 million required from bond sales to fully fund the effective appropriation.

Two bills were also enacted into law that changed the results of the March conference. CS/SB 1328 transferred \$4.6 million of unallocated funds from an expired trust fund to the PECO Trust Fund. CS/SB 1060 changed the due date for the Gross Receipts Tax from the last day of a month to the 20th day of the same month. This date change will have the effect of accelerating tax collections, effectively creating a month with double tax payments. Under the PECO bonding formula, this will create additional bonding capacity in FY

2008-09, as bonding capacity is pulled forward into that year from FY 2009-10 and FY 2010-11. This change has been reflected in the figures above.

In 2007 Special Session "C", the remaining cash balance of \$168.25 million in the PECO trust Fund from prior year Documentary Stamp Tax distributions was transferred to the General Revenue Fund. As this cash amount was never included as a part of the PECO Trust Fund estimate presented here, this action has no effect on the new projection.

NOTE 1 : According to statute, the share of General Revenue tax collections going to the State Infrastructure Fund was to increase from \$200 million to \$500 million in FY 1988-89. The PECO Trust Fund was supplemented by a \$255.2 million transfer from the State Infrastructure Fund.

NOTE 2 : Again, the State Infrastructure Fund provided \$150 million for the PECO trust fund. Additionally, a large balance forward in the Educational Enhancement (Lottery) trust fund allowed the transfer of \$49.9 million. A speedup in tax collections added about \$35 million in cash.

NOTE 3 : Taxes were increased effective July 1, 1990, 1991, and 1992. While bonding the new tax collections could not be done until the following fiscal year, the tax increase did provide about \$78 million in cash. Also, lower interest rates allowed a large PECO debt restructuring to occur, saving \$110 million in cash payments for the year in interest and sinking fund obligations (most of which was nonrecurring). The original estimate of funds available was \$221.0 million before the refinancing and tax law change.

NOTE 4 : High bonding levels are attributable to the increases in the Gross Receipts tax rate.

NOTE 5 : High bonding levels are attributable in part to the tax increase. In addition, further debt restructuring due to declining interest rates gave a boost to bonding capacity by lowering outstanding debt service.

NOTE 6 : General Revenue was used to supplement the regular PECO trust fund appropriation. In addition, in Special Session "C" an additional \$260.7 million was appropriated, of which \$192.6 million was funded from the sale of bonds and \$68.1 million from available cash.

NOTE 7 : Additional cash distributions from the Documentary Stamp Tax to the trust fund and subsequent disbursements as established in Senate Bill 360 are not included in these figures.
