

Revenue Estimating Conference
Slot Machine Revenues
August 5, 2022
Executive Summary

The Revenue Estimating Conference reviewed slot machine revenues on August 5, 2022. Tax collections for FY 2021-22 were \$241.0 million or \$9.8 million over the forecast adopted January 18, 2022, as facilities continued to return to more normal operations after a series of pandemic-related interruptions.

After strong growth early in the year, June collections fell below the prior year and preliminary July data looked to do the same. Coupling these results with increased national economic headwinds and the delayed impact that inflation may have on consumers as they readjust spending habits to account for the losses in disposable income, the Conference made only modest changes to the forecast. A comparatively low growth rate of 0.7% was used for the current year (FY 2022-23). For all other years, including FY 2023-24, the growth rate falls between 1.0% and 1.1%.

* The FY2012-13 revenue of \$142.2 million is based on actual collections received during FY2012-13. Because the state switched from weekly to monthly collections at the end of FY2011-12, the July 2013 collections are made up of only one week of June 2013 revenue. This change lowered FY2012-13 revenues by approximately three weeks of collections. The income per machine per day is based on actual FGCC activity data for FY2012-13.

**Slot Machines Tax
Aug 2022**

NOTE: Machines shown by facility reflect the annual average for operating days; total machines across all facilities are weighted by the number of days open.
