

Social Services Estimating Conference

Temporary Assistance for Needy Families Assistance Payments

Executive Summary

The Social Services Estimating Conference convened on January 30 to revisit the estimates for the current fiscal year and adopt a revised forecast for FY 2004-05.

The estimate for the current year has been reduced slightly from the previous estimate done last September. Total expenditures for assistance payments are estimated to be lower than the prior estimate by \$2.3 million, and less than the appropriation by \$4.2 million. Caseloads have been slightly below the old estimate, and this reduction more than offsets a slightly higher size of average grant payments.

For FY 2004-05, the expenditure forecast is again less than the current year appropriation by \$1.7 million, at \$230.2 million. The caseload forecast is basically unchanged from FY 2003-04, but again, average grant payments are slightly higher.

Discussion at the conference centered on the surprising stability of the caseloads over the last three years, considering the economy has been through a recession. Additional discussion centered on an administrative effort to simplify the eligibility process. However, at the present time, there is not enough information to determine whether this simplification will have any effect on caseloads.

| | Regular with adult | Regular child only | Relative Caregiver | Unemployed Parent | Total Caseloads |
|------------|-----------------------|-----------------------|-----------------------|----------------------|--------------------|
| FY 2002-03 | 23,094 | 27,040 | 7,376 | 2,813 | 60,323 |
| FY 2003-04 | 22,550 | 26,017 | 8,570 | 2,736 | 59,873 |
| FY 2004-05 | 21,983 | 25,300 | 9,494 | 2,756 | 59,533 |
