

## Social Services Estimating Conference

### Temporary Assistance for Needy Families Assistance Payments

#### Executive Summary

The Social Services Estimating Conference convened on October 6 to revisit the estimates for the current fiscal year and adopt a new forecast for FY 2006-07 through FY 2008-09.

The estimate for the current year has been reduced significantly from the previous estimate done last January. Total expenditures for assistance payments are estimated to be less than the appropriated amount by \$34.4 million. While the number of persons receiving grant payments are expected to be lower, this reduction is offset somewhat by higher average grant amounts.

For FY 2006-07, the expenditure forecast is less than the current year appropriation by \$36.6 million, coming in at \$182.0 million. The forecast of persons receiving payments is about 3.8% lower than FY 2005-06.

Beyond FY 2006-07, little change in the level of cases, persons, or expenditures is predicted.

At the conference, discussion centered on the recent sharp drop in TANF cases with adults. The Department indicated that new approvals have declined while families exiting from the system have not changed significantly. Several possible reasons were evident, including a more efficient flow of new applicants with employment skills into job placement, the higher minimum wage reducing or eliminating grant payments for some families, and a strong economy in general.

Other discussion relating to families displaced by Hurricane Katrina resulted in a consensus that there would be little measurable effect on the regular TANF program from the hurricane. Temporary federal funding of grant payments will be available for some of these families, but it was unlikely that such an impact would be lasting or significant.

#### TANF CASELOAD FORECAST

|            | Families with adult | Child only cases | Relative Caregiver | Unemployed Parent | Total Caseloads |
|------------|---------------------|------------------|--------------------|-------------------|-----------------|
| FY 2004-05 | 20,049              | 23,714           | 15,786             | 2,342             | 61,891          |
| FY 2005-06 | 14,613              | 21,253           | 19,175             | 1,604             | 56,645          |
| FY 2006-07 | 13,723              | 19,948           | 20,352             | 1,489             | 55,512          |
| FY 2007-08 | 13,090              | 18,748           | 21,552             | 1,363             | 54,753          |
