

Revenue Estimating Conference for Tobacco Settlement Payments

Executive Summary

July 25, 2023

The Revenue Estimating Conference met on July 25, 2023, to revise the forecast of Tobacco Settlement payments for the 2023-24 through 2033-34 fiscal years.

Tobacco settlement payments accrue to the state from a formal settlement agreement entered on August 25, 1997, in response to a lawsuit between the State of Florida and several major tobacco companies. An annual payment is due by December 31 of each year, and a profit adjustment payment is made following the end of each participating company's fiscal year. Both payments continue in perpetuity.

When the Conference last convened in April 2023, the final payment for the 2022-23 fiscal year was already known, so no additional adjustments were needed to the receipts for the year. Only two sources of additional data are available to this Conference: a revised Consumer Price Index series based on the latest forecast from the National Economic Estimating Conference, and new estimates for the percent change in domestic cigarette units sold based on the Tobacco Tax and Surcharge Conference results. After making adjustments to incorporate the new information, combined cash payments of \$419.7 million are now expected for the 2023-24 fiscal year. This total is 2.1 percent above the amount previously forecasted, primarily due to higher expected near-term inflation and a smaller decline in the units sold than previously anticipated. These changes feed positively through the early years of the forecast, but the greater long-term decline in the sale of domestic cigarette units pulls down the forecast in the outer years.

For estimated total liability, the new forecast has been adjusted to reflect this information, as well as the expected Liggett payments. The cumulative effect of these changes resulted in increasing the forecast by \$8.5 million for FY 2023-24 and by \$5.6 million in FY 2024-25. The table below shows the newly estimated settlement payments to the State of Florida and the change from the previous forecast.
