

Voluntary Prekindergarten Estimating Conference

Executive Summary

July 31, 2015

The Voluntary Prekindergarten Estimating Conference met on July 31, 2015, to adopt the impact on the VPK program from the expansion of the Personal Learning Scholarships to four year olds; review and analyze updated 2014-15 school year and 2015 summer data reported through June 2015; and adopt a forecast through 2019-20.

The conference decreased the forecasted 2014-15 school year enrollment based on reported school year and summer data through June 2015. This reduction extends into the outer years; however, population growth will continue to drive overall increases in enrollment. This growth only affects school year enrollment, since summer enrollment is forecast to remain at 2015 summer forecasted levels.

The forecast uses the most recent ratio of FTE to enrollment (2014-15 school year and 2014 summer) and includes estimates for the Specialized Instructional Services Program (SISP).

While the new forecast produces a participation rate of roughly 75.0% of all eligible children in all forecast years, the Conference views the recent drift in the percentage as a risk to the forecast.

Assumptions		
Population Participation	Participation rates will be 75.3% in 2019-20, as the program year growth rates are based on population growth.	Participation rates will be 75.0% in 2019-20, as the program year growth rates are based on population growth.
VPK Enrollment 2014-15 Program Year and School Year	Program Year 2014-15 is the sum of an estimated 2014-15 School Year and 2015 Summer. 2014-15 School Year is estimated based on year-to-date activity for school year through January 2015 relative to January 2014.	Program Year 2014-15 is the sum of 2014-15 school year and 2015 estimated summer. 2014-15 school year is year-to-date activity for school year reported through June 2015. 2015 summer is estimated based on May/June 2015 data.
Summer Growth	Analysis uses summer 2014 data.	Held constant to 2015 estimated summer levels.
Summer Providers	Only counties that offered summer 2014 will offer summer programs in the future. Summer round-up for the forecast years is held constant at 2014 summer round-up levels.	Only counties that offered summer in May/June 2015 will offer summer programs in the future. Summer round-up for the forecast years is estimated for May/June and held constant for July/August based on July/August 2014 summer round-up levels.
Relationship of Full Time Equivalent (FTE) Enrollment to Enrollment	Constant relationship based on 2013-14 school year and 2014 summer programs.	Constant relationship based on 2014-15 school year and 2014 summer programs.
Specialized Instructional Services Program (SISP)	SISP Only enrollment will be held constant in the forecast to the levels seen in 2014 summer and estimated 2014-15 school year. Each SISP student that is still active in the program, is assumed to earn 1.0 FTE. The forecast period assumes an FTE of 1.0 for all projected SISP students. If a child starts SISP during the school year, it is assumed that the FTE is accrued in the school year. If a child starts SISP during the summer, their FTE is distributed throughout the summer, across the two fiscal years.	School-year SISP enrollment will be held constant in the forecast to the levels seen in 2014-15 school year. Summer SISP is estimated based on activity so far this year. Each SISP student that is still active in the program, is assumed to earn 1.0 FTE. The forecast period assumes an FTE of 1.0 for all projected SISP students. If a child starts SISP during the school year, it is assumed that the FTE is accrued in the school year. If a child starts SISP during the summer, their FTE is distributed throughout the summer, across the two fiscal years.

Terminology

Terminology	
Enrollment	Headcount of students in a program; unduplicated state and duplicated counties.
Fiscal Year	July 1 - June 30 (Includes part of summer enrollment from two program years).
Full-Time Equivalent (FTE) Enrollment	One Full-Time Equivalent Enrollment represents one child enrolled for the entire program. FTE calculation is based on the number of hours paid divided by 540 or 300 depending on the child's program (either 540 for the School Year program or 300 for the summer program).
Participation Rate	Program Year enrollment divided by the estimated/forecasted October 1, population of 4-year olds.
Program Year	Includes the VPK School Year and Summer Programs based on eligibility as determined by date of birth.
Public School Round-up	The public school FTE enrollment round-up refers to adding enrollment to public school FTE enrollment if the level of enrollment is not a multiple of 12 for summer 2009 and beyond and a multiple of 10 for summers 2007 and 2008.
School Year	540 hour VPK Program that runs from July/August (varies by county) until May/June.
SISP	Specialized Instructional Services Program
